

SUMMARY

Product and data strategy professional with 4+ years driving end-to-end product lifecycles for AI-enabled platforms at scale. Built and shipped analytics products impacting 4M+ learners nationally; architected 50+ KPIs and 11 dashboards for a Ministry of Education decision platform. Combines strong discovery, roadmap prioritization, and stakeholder alignment with hands-on SQL/Python capability, enabling fast, data-grounded decisions. Proven track record across edtech, consulting, and enterprise SaaS.

EXPERIENCE

Deloitte Touche Tohmatsu India LLP

Consultant (Asst. Manager) - AI & Data

National Insight Center for Education (NICE), Ministry of Education

Gurugram

Sept '25 - Present

- Owned end-to-end delivery of 11 analytics dashboards consolidating multi-source data across 6 national initiatives, providing real-time performance visibility to senior government leadership for programs impacting 50L+ learners annually.
- Defined and operationalized 50+ standardized KPIs including benchmarking, outcome-tracking, and role-based access controls enabling governance across 4 Joint Secretary departments and 176 CFIs.
- Architected BigQuery data pipelines and coordinated API integrations across 6 initiatives, reducing data reconciliation time by an estimated 30% and establishing structured validation controls for a unified analytics layer.
- Ran discovery and prioritized 10 UX/feature enhancements (4 shipped in first cycle), improving dashboard usability scores and cross-initiative comparability for ministry stakeholders.
- Designed a revamped NICE portal spanning 8 modules (Student Journey, Research Lifecycle, Employability, NEP Monitoring, Finance & Impact, Global Benchmarks, Media Scanning), expanding platform scope to a full higher-education intelligence suite. [\[Live prototype ->\]](#)

Wadhvani AI - Lords Education and Health Society

Product Analyst - AI/ML Solutions

New Delhi

Aug '23 - Sept '25

- Launched 2 AI-enabled digital products deployed on national platforms, collectively serving 4M+ learners; led full product lifecycle from discovery through deployment across cross-functional teams of engineers, designers, and domain experts.
- Reduced manual data processing overhead by 40% by designing and shipping automated SQL/Python pipelines and self-serve dashboards, freeing the team to focus on product improvement.
- Drove a 25% increase in product adoption over two release cycles through structured user research, persona development, and iterative UX enhancements informed by usage analytics.
- AI Spoken English Assessment Tool: Scaled to 120K+ active learners; optimized AI feedback pipelines, reducing average feedback latency by ~20% and lifting engagement metrics quarter-over-quarter.
- Course Recommendation System: Delivered a 35% improvement in course discoverability and 18% increase in click-through rate during pilot, validating the recommendation model with a structured A/B test across 15K users.
- Maintained a prioritized backlog of 30+ features, facilitating bi-weekly sprint reviews and stakeholder demos, resulting in a 2-week reduction in average sprint-to-release cycle time.

Buck Global Information Services

Associate Business Analyst - Systems & Implementation

Chandigarh

Jan '22 - Aug '23

- Delivered 7+ enterprise system integrations across client engagements, reducing post-launch defects by 15% through structured QA processes and detailed requirements documentation.
- Improved cross-team reporting turnaround by 35% by standardizing data extraction workflows and building reusable report templates, cutting manual effort by ~8 hours/week per analyst.
- Mentored a team of 3 junior analysts, increasing individual productivity by 20% through structured onboarding, peer reviews, and weekly knowledge-sharing sessions.
- Awarded 'Star Performer' recognition three times for high-impact delivery, client satisfaction, and execution excellence in complex multi-stakeholder projects.

EDUCATION

Bachelor of Engineering (B.E.), Computer Science Engineering

O. P. Jindal Institute of Technology, Raigarh

2014 - 2018

CGPA: 7.38/10

ACHIEVEMENTS

- Co-established the National Insight Centre for Education (NICE): Defined the centralized KPI taxonomy and analytics framework now used by Ministry of Education for national program monitoring.
- Promoted from Associate Product Analyst to Product Analyst at Wadhvani AI in 16 months (vs. typical 24-month track), recognizing demonstrated product ownership and delivery impact.
- 3x 'Star Performer' at Buck Global: Consistently ranked top-quartile for delivery quality, client engagement, and cross-team collaboration.

SKILLS

Product	Product Discovery & Strategy, KPI & Metrics Design, Roadmap Prioritization, Feature Scoping, User Research, Agile / Scrum, Cross-functional Leadership, Stakeholder Management
Data	SQL (BigQuery), Python (Jupyter/Pandas), Data Modelling, API Integration, Dashboard Architecture, A/B Testing
Tools	Power BI, Figma, Microsoft Office, Asana, Draw.io, Bubble, Google Analytics, React, Vercel
